All details above are provided for guidance only but are believed to be accurate at the time of writing. Average figures will differ from course to course and will depend on the option modules chosen. Modifications may be made to the course in line with our [Course Approval and Modification Policy](#).

Additional Information

Timetables

Timetables are made available during enrolment. While every effort is made to make the timetables as student friendly as possible classes could be timetabled any time between 9am – 6pm, on Fridays, Classes may also be at different BIMM buildings depending on lecturer and resource availability.

On average, part-time students will have 4.5 class contact hours per week.

Year Structure

Years at BIMM University are divided into two 15-week semesters of which 12 weeks are dedicated to teaching. The academic year usually starts late September/early October and runs until May.

Assessments:

Practical Exams

Practical exams ask you to demonstrate a practical skill under exam conditions. These practical skills could include things such as your ability to play your instrument, your ability to perform in an ensemble setting or your ability to produce a recording or operate hardware/software. The skill being tested will depend on the module and course being taken.

Written exams

Many students will be familiar with this type of assessment. Written exams at BIMM University are often used for theory and listening modules and are sat under exam conditions. For more details on exam conditions please refer to the [Academic Regulations](#).

Practical coursework

Practical coursework often asks you to demonstrate a practical skill but, unlike practical exams, you work on the assessment piece in self-directed study time and hand in the final assessment for marking. Examples of this type of assessment include writing a song or mixing a recording.

Multimedia coursework/ Portfolio Assessments

Multimedia coursework contains a mixture of elements some written and some practical. An example of this type of assessment is creating a 3-page newspaper layout containing text and visual elements. On some courses, you may have to do portfolio assessments which you compile a mixture of audio/visual and written elements together. This is usually done using online portfolio software.

Written coursework

Written course work is used in all BIMM University courses and can take several forms:

- Research essays – in these assessments you will be expected to conduct research into the chosen topic. This could include secondary research (reading) or primary research (conducting original research such as focus groups/questionnaires etc.). You will then be required to write an essay based on this research, putting forward clear and concise arguments.
- Reflective essays – in these assessments you are required to reflect on your professional practice or development activities and identify areas for improvement. These essays do require you to engage in adequate research which will depend on what the subject of the reflective essay is.
- Case Study – these assessments require you to research and write about a specific entity or section of the industry related to your course. For example, a case study of a record Label would require you to look at how the company works, what has made them successful etc.

In some cases, an assessment may combine two or more of these types of written work.

Presentations

In these assessments, you will be asked to make a planned presentation to an assessor or panel of assessors. Some presentation assignments ask you to reflect on your practice on the course while others are more academically focused and require you to engage in rigorous research.

Learning and Teaching

Teaching

BIMM University encourages its staff to employ a wide range of learning and teaching techniques. We provide training for new staff and many of our lecturers are qualified teachers as well as industry professionals.

Most lessons will be in classes of 10-25 students however this will depend on the number of students that apply for a course and the resources that are available.

There are some larger lectures for bigger modules which are shared across multiple courses. These classes are delivered in a more traditional university lecture style to large groups of students.

For more detail on the learning and teaching methods BIMM University employs please see our [Higher Education Strategy](#).

Self-directed study

All courses at BIMM University have self-directed study hours associated with them. During this time, you are expected to be engaging in appropriate learning activities for your course. This could include practicing your instrument, conducting research, writing assignments and preparing for upcoming classes.

Formative Assessment

BIMM University has a number of mechanisms for formative assessment which allow you to gain feedback before the final exam or coursework deadline.

Many modules have formative assignments built into them. In some cases, these are ungraded and are there purely so you can improve your final submission.

In-class activities are also used as an opportunity to provide feedback to students. During lessons, there are often opportunities to receive feedback from peers as well as the lecturers and some lessons are heavily focused toward providing students who perform or present their work with feedback to help them improve.

Students can also take advantage of BIMM's tutorial system to gain additional feedback. The tutorial system allows you to book 1 to 1 sessions with lecturers. You can use these sessions to gain specific feedback on any aspect of your work.

Staff

BIMM University is proud of its long history of employing music industry professionals to teach at all our campuses. We believe that through this practice we provide the best opportunities to our students to learn from lecturers who understand their goals and have the knowledge and experience necessary to help make them a reality.

More information can be found regarding our lecturers on our [Staff page](#).

Unfortunately, the University cannot guarantee which lecturer will be teaching on individual modules as this will depend on lecturer availability and when classes are timetabled.

Sometimes lecturers are granted leave to engage in industry activities such as going on tour, conducting research or other professional development activities. This is vital to ensure that our lecturers can give students the most current information, and share recent experiences, regarding a music industry that is constantly evolving and expanding into new areas.

Whenever a lecturer goes on leave, whether it is due to industry activities or unavoidable factors such as illness or maternity leave, BIMM University endeavours to ensure that lessons are covered by an industry professional with relevant experience in the subject. Through this practice, we aim to provide high quality learning opportunities throughout your course of study at BIMM University.

Language

All qualifications at BIMM University are taught and assessed in English.

Costs

Tuition Fees

Accurate tuition fees information can be found on our finance pages: [Fees & Finance](#)

Payment can be paid via debit/credit card at www.bimm.co.uk/pay or via bank transfer.

Any queries related to finance can be directed towards dublin@bimm.ie.

Additional Costs

Students who are thinking of applying to BIMM University should read the [Essential Equipment](#) guide which outlines what is required to successfully study at BIMM University.

Most BIMM campuses provide a limited number of rehearsal rooms, and free access to rehearsal facilities in local venues, unfortunately these can become fully booked at peak times and, at some campuses, are not available outside BIMM opening hours. Depending on when you want to rehearse and the frequency with which you want to rehearse you may need to pay for private rehearsal space.

Accommodation and Living Costs

Information about accommodation and living cost at BIMM Dublin can be found on our guide below-

[Accommodation guide](#)

Disabled access

BIMM Dublin is accessible to disabled students. There is a lift in the Francis St building ensuring access to the first floor, and a wheelchair accessible back entrance to the Coombe building. The outdoor area in the Coombe building is not accessible for wheelchairs, but the common rooms are accessible, there are accessible bathrooms available in both buildings. There is a fire refuge point on the first floor of the Francis St building in case of emergencies, linking to the emergency exit.

For more information and details of how to apply for support please see our [student disability guides](#).
