education

bimm.co.uk

Welcome to your
BIMM Institute Brighton

Congratulations On Being Offered A Place!

BIMM Institute Brighton was founded in 2002 with fewer than 100 students. Since then, our student population has grown to over 1300, with each year bringing a unique creative output from the students that makes BIMM Institute Brighton a real force for developing you and focusing your careers goals from the day you arrive with us. Our student population is made up of a diverse community of creatives, studying courses that range from RSL awarded further education to BIMM validated undergraduate degrees and master's, all tailored to help you achieve what you want.

Our new suite of courses were created in close consultation with the music industry, alumni and of course our industry professional lecturers and staff who have created something truly unique in creative education. We also have a wider creative community with our partnerships with the Institute of Contemporary Theatre (ICTheatre) and Screen and Film School (SFS), creating an even bigger network for you to collaborate with and start your journey towards a sustainable creative career.

You will be working with and guided through your course by the music industries very best all of whom believe in your potential and know how to

unlock it. All BIMM lecturers have a vast experience in the music industry, combining their teaching at BIMM with professional music industry careers as performers, writers, arrangers, producers, business, and events entrepreneurs. This approach to delivering a modern creative curriculum, allied with our fantastic visiting faculty, masterclass guest programme, careers department and industry standard resources, is designed to provide a creative, inclusive, and safe environment that is challenging, stimulating, and connected to the wider industry.

This enables You, the professionals of tomorrow, to hone your skills and knowledge in whatever field of the industry you wish to be in so, whatever your ambitions, BIMM Institute Brighton will give you the very best guidance and opportunities to achieve your goals.

We look forward to welcoming you this academic year and best of luck with all you wish to achieve.

Induction And Enrolment

Online Enrolment For Your Course

To study at BIMM Institute, you will need to complete enrolment. You will be sent instructions on how to enrol via email. There are up to 3 stages to complete enrolment before you become a registered student.

Stage 1 - Enrolment Form & Finance

Students will receive a link to the Enrolment Form, where they can securely log on, update their personal details and any other required information, as well as upload copies of their qualifications (where relevant), ID and passport style photos required for their Student ID Card. This Enrolment Form also contains the Terms & Conditions that students must agree to before commencing their studies at the Institute and requires confirmation of how tuition fees will be covered, either by providing confirmation of a successful Student Loan Company agreement or by paying privately.

Stage 2 - Applications & Systems Information

For the final stage in the enrolment process, students are provided with login credentials and a virtual tour of the applications and systems they will use throughout their studies.

Stage 3 - Issuing of Student ID Cards

Students will receive a photo ID card to be worn at all times on Institute premises. The Institute reserves the right to refuse admission to College premises to students not wearing their ID card.

Induction & Freshers'

Closer to the start of the course, your college will contact you with induction and freshers' information, so look out for this in your inbox and on social media platforms. The events begin on Monday 12th September and it's important that you plan to arrive in Brighton by that date. Some of the events offered to you will be essential for you to attend and others will be more informal events. Make sure to take full advantage of the activities and events the college is putting on for you.

Induction events include important information about your course, give you the opportunity to meet your course leader and your future classmates.

Semester/ Term Dates

You can check the dates of your course [here](#).

Student Support

studentsupportbrighton@bimm.co.uk

Finance

financeenquiries@bimm.ac.uk

All students are required to complete enrolment. You will have been sent an email with a link to the enrolment portal, which will guide you through all the required processes. Below are a list of things that **MUST** be completed before you can start the course:

Enrolment form - must be completed in full and submitted - the link to this form will have been sent to you by email.

Passport style photo - this will be used for your student ID card. Please follow the guidelines on the enrolment form. You will not be able to enter BIMM buildings without an ID card.

Proof of ID - we require proof that you have the right to study in the UK. Ideally this will be a valid passport. You will upload a copy when completing the online enrolment form.

The online enrolment form must be completed in full before you can become an enrolled student at BIMM Institute.

Access and Participation

We believe that there should be an even playing field and equality of opportunity, no matter who you are.

That's why we are wholeheartedly committed to widening access and participation from underrepresented groups in Higher Education. Whether you are an applicant or a current student, we strive to improve the equality of opportunity for all.

What is Access and Participation?

Access and Participation essentially supports specific groups of students to access higher education, improve your success and support career development where there might have been past challenges. In particular, we are encouraging and supporting applications from underrepresented groups, such as Black, Asian and ethnic minority communities; students from lower-income backgrounds and areas of low participation in Higher Education; students with disabilities; care-leavers; and mature students.

We're dedicated to making Higher Education more equal and fair. It's something we passionately believe in - and it's why our Access and

Participation (AP) department exists. As a team, we constantly review and evaluate our initiatives and progress against the targets in our approved Access and Participation Plan. That way, we can iron out any inequalities and make ourselves as diverse and inclusive as possible.

You can also check out our BIMM Access and Participation Plan [here](#). It sets out our commitment to remove any gaps or hurdles that might be in place for someone when it comes to access, success and progression.

Our Access and Participation Initiatives and Support Schemes

As part of our commitment, we've developed several targeted initiatives and activities to help you thrive throughout your time with us.

Each of these initiatives provides you with the best possible opportunity to succeed and progress to a sustainable career in the creative industries.

Bursaries, Scholarships and Financial Support

We have a package of bursaries and scholarships to remove any financial barriers when it comes to access. These include:

- Low Income Household, Care Experienced and Disabled Student Bursaries
- The Fair Access Fund which offers bespoke financial support to students from Black, Asian and minority ethnic backgrounds, low income backgrounds and low participation in Higher Education areas

Further Education students can also access additional financial support via New College Swindon, our partner college. Their range of financial support includes a Learner Support Fund and a Bursary for Vulnerable Groups. We can help support your application to these support funds as soon as you have accepted your place with us. The funds are open to students prior to enrolment to help you access BIMM courses.

Access and Participation Coordinators

Our AP Coordinators work within our fantastic and friendly College **Student Support teams** on initiatives like the Fair Access Fund, and help students transition into Higher Education.

You may have met your AP Coordinator already at an Open Day. They can help with any arrangements you may need to make in advance of starting your course, like disability support and applications to the Disabled Students Allowance. They also organise activities, focus groups and trips for our Access & Participation students to build a community of like-minded students to support them during their studies. The AP Coordinators are here to help you get everything in place before you start your course, so drop them a line if you have any queries or concerns and they can help get you up to speed and ready to go!

Access and Participation Student Group

Our Access and Participation Student Group means that students can review and feedback on all our initiatives. This group of volunteer students meets every term to discuss progress against the targets in the AP Plan. This student-led meeting feeds into the Access and Participation Committee, which creates and oversees new proposals and works with the Equality, Diversity and Inclusion student group.

Student Support

We are committed to helping students fulfil their potential during their time at BIMM Institute and we prioritise supporting the development of our students both academically and personally. The Student Services team is available at every step of your student journey to offer confidential support and guidance on a whole range of issues. We also offer a wide range of additional support and wellbeing initiatives throughout the year that are designed to meet students' academic and welfare needs to enrich your BIMM experience.

Pastoral & Emotional Support

You can book one-to-one pastoral tutorials with a Student Support Officer to discuss any issue you may be struggling with. These sessions are strictly confidential and can include any topic ranging from personal issues, attendance and assessment related queries, discussion of special considerations we may need to take into account to support your studies and booking into one of the other support services we offer. We actively encourage you to book appointments to talk with us at any point during your studies for extra support.

Academic Tutorials and Professional Development

Students are encouraged to book regular one-to-one tutorials to work on technique, master your academic writing and discuss your skills, development and long/short term career goals. Tutorials provide a unique opportunity to be individually guided by the most experienced industry professionals in the country.

Disability Support

BIMM Institute is committed to a policy of equal opportunities and you can access confidential advice and support if you have any disabilities or specific learning difficulties.

We are committed to ensuring that students with specific needs are provided with equal access to their chosen course of study and facilities. The College is working towards removing any barriers which might prevent an individual from actively participating in student life.

If you indicate on your application and/or pre-enrolment form that you require further support, a member of the Student Support team will be in contact to arrange an individual consultation. This is to ensure all requirements are catered for.

We work with students with a wide range of disabilities, including but by no means restricted to:

- Specific learning differences (such as dyslexia, dyspraxia)
- Mental health conditions (such as depression, bi-polar disorder, anxiety)
- Neurodiverse conditions (ADHD, Autistic students, Tourettes)
- Long-term medical conditions (such as HIV, cancer, multiple sclerosis)
- Unseen disabilities (such as diabetes, asthma, epilepsy)
- Sensory impairments (such as visual/hearing impairment)
- Mobility or physical impairments (such as paralysis, arthritis)

If you have any of the above conditions and can obtain either medical evidence or, in the case of specific learning differences, an Educational Psychologist Report, you may be eligible for DSA (The Disabled Students' Allowance). The DSA can fund additional support such as specialist one-to-one study skills or mentoring, reasonable adjustments and technological aids.

If you do not have an Educational Psychologist Report, but suspect a specific learning difference you should contact the Student Support team who can help you arrange the relevant assessments and advise on accessing support. You can find more information regarding DSA (including eligibility and application forms) here: www.gov.uk/disabled-students-allowances-dsas/overview

If you require any additional information or would like to discuss this further with one of the Student Support team, please contact **studentsupportbrighton@bimm.co.uk**

Please note that most Educational Psychologist Reports are provided by external organisations who charge a fee.

Student Representative Programme

The Programme

Student Representatives are elected in semester one of each academic year, with existing Reps remaining in post until the elections take place. There is one Student Rep elected from each course and academic year.

The Role of a Student Rep

The main role of a Student Rep is to liaise and represent the views and opinions of students on the course and to feedback to members of academic and support staff via the termly Student Representation Forums (SRF), which take place each semester. Feedback and agreed action points are then taken forward to the Board of Study meetings which take place later in the semester.

The outcomes of these meetings are then shared with students and reported to the central Quality team's cycle of meetings. A Student Rep from each college is invited to represent the student body at the central Group level meetings.

As a Student Rep you will attend all SRF Meetings and potentially some Board meetings and push for changes on your course that your fellow students want to see. For this to be possible and to meet the full potential of the role you will be the central point of communication for students on your course. More information on the role of Student Reps and elections will be available in semester one. If you are interested in learning more about the role please get in touch with **studentsupportbrighton@bimm.co.uk**

Therapeutic Support

BIMM offers short-term therapeutic support to students, supporting a variety of issues including anxiety, low mood and depression, confidence, self-harm and suicidal feelings, relationship or family issues, identity and self-image and other difficulties.

These sessions take the form of one to one meetings with a professional, during which you may speak about your feelings, reactions and experiences in a confidential space. It can be helpful to explore difficult emotions, relationships or events in your life with a non-judgemental, caring professional who is solely there to focus on your needs. The service provided is experienced and abides by the British Association for Counselling and Psychotherapy Code of Ethics.

BIMM Student Association (BSA)

The Brighton Student Association has been created to enhance the student community by providing Societies led by students for students. We currently have several Societies up and running and are keen for you to get involved. Some of the established Societies include LGBTQ+, Women's, The Environmentalists, The Vegan and The Events Society.

There is also scope for many more and you are welcome to get involved or even start your own. There will be much more information available over the enrolment period but if you are keen to get involved before you start your course get in touch via **brightonsocieties@bimm.co.uk**

The BSA will be running events throughout the induction period and across the academic year. Historically, these have included the Loft Sessions, Green Door Store gigs, Music Production Nights and Open Stage Nights. The BSA supports the Teenage Cancer Trust as its chosen charity.

BSA Brighton Team

The BSA team are here to support you and to make your student experience as positive as it can be. We want to create a space where you feel that your wants and needs are being respected; a place where your voices are being heard.

Our team is made up of current students and alumni from BIMM Brighton. For further information see: <https://bimmnet.sharepoint.com/sites/BIMMBrightonStudentAssociation>

Brighton
Life

The city of Brighton and Hove really does have everything – sun, sea, brilliant clubs, loads of live music, great places to eat, fabulous shops and a real bohemian cosmopolitan vibe. It's estimated that students form around 15% of the population here, so you can be confident that you'll find plenty of like-minded people and lots to keep you occupied.

Culture

Brighton and Hove is a highly creative city with a diverse cultural scene and a wealth of theatres, galleries, live music and cinemas. Some of the most popular places exhibiting the best of culture in the south can be seen below:

Theatre Royal Brighton, New Road – two centuries old, this is the venue for pre-West End premieres and big touring shows

The Dome/Corn Exchange, New Road – an excellent venue for a wide variety of dance, music and theatre

Komedia, Gardner Street – situated in the heart of Brighton's North Laine, a popular venue for comedy, music, and cabaret and home to the Krater Comedy Club. Also home to Duke's at Komedia, a two-screen cinema.

Duke of York Picturehouse, Preston Circus – One of the oldest cinemas in the world and a Brighton institution. It shows the latest films, along with many independent movies, and provides regular themed screenings

Pavilion Museum and Art Gallery, Pavilion Gardens – set in the grounds of the Royal Pavilion, this venue has rich historical collections and exciting exhibits both new and old. Plus, entrance is free!

Concorde 2, Madeira Drive – this music venue has legendary live bands, incredible club nights and the biggest sound and lighting system in Brighton.

The highlight of the cultural year is the annual Brighton Festival. Held in May, it is England's biggest arts festival, attracting hundreds of performers to its three-week stint. You will be able to catch internationally renowned musicians, dancers, poets, comedians and writers.

This rich mix of performers can be found everywhere throughout the city, be it a bar, cafe, an established theatre or spilling out onto the streets and parks of Brighton.

The Great Escape Festival is held every May in Brighton, showcasing over 400 up and coming artists from all over the world across 35 walk-able venues. With the biggest LGBTQ community in Europe, Brighton is the home to 'Pride', the UK's biggest Gay Pride Carnival. People from around the world flock to this event, which celebrates the liberalism of Brighton's LGBTQIA+ culture and community.

Brighton Facts and Figures

Population - 290,000 Source: Office for National Statistics estimate, 2016

Students in higher education - 38,000 Source: Higher Education Statistics Agency, 2018

Officially the happiest city in England for students Source: Sodexo University Lifestyle Survey, 2017

Economy valued at £56bn annually Source: Brighton and Hove City Council, 2018

Nightlife

When the sun sets, Brighton's legendary nightlife kicks in. The city boasts over 200 pubs and bars; the most bars and pubs per square mile than any other city in the UK. The majority of Brighton's clubs, including Concorde 2, Patterns, Coalition and the Green Door Store hold gigs in the early evening before opening up to their regular club nights later on. There is an event to cater for every taste, almost every night of the week. Don't worry about missing out on anything though – you'll be handed flyers at every street corner and most pubs, bars and cafes will have the latest what's on guide.

Shopping

Brighton can satisfy all your shopping needs. Big name stores can be found in Churchill Square shopping centre and on Western Road, but if you're looking for something a bit more off-beat then visit the bohemian North Laine; a laid-back area of independent clothes shops, cafes and record shops. This is not to be confused with the upmarket South Lanes area with its cobbled alleyways of exclusive fashion boutiques and expensive antiques.

KOMEDIA - DUKE'S

The Great Outdoors

Obviously, there's Brighton beach and the pier, but hop on one of the open-top buses that run from the seafront and you'll soon find yourself in some of England's most beautiful countryside. Devil's Dyke is the best place to enjoy breath taking views of the South Downs, while Stanmer Park has acres of open space, a brand-new visitor garden, market and cafe as well as a traditional tearoom that should go down well with your family when they visit.

Eating Out

Whatever your taste and budget you'll find plenty of places to eat in Brighton. There are over 400 restaurants, more than anywhere in the UK outside of London, which provide food from all cuisines.

Transport

BIMM is well connected to the rest of the city via public transport.

Bus - The 'Brunswick Place' bus stop, which is very close to our BIMM West, House and North campuses, is serviced by buses from all over the city:

- 1, 1A, 2 Hove – Kemp Town
- 5, 5A, 5B West Hove – London Road
- 20, 21, 21B Brighton Centre – Hanover
- 25, 46, 49 Portslade – Lewes Road – Moulsecomb
- 6, 60, 700 South Coast – Brighton Centre

Our East campus is located in Rock Place, Kemptown and is served by the 1 and 1A bus route.

BIMM Central, as the name suggests, is right in the centre of the city, on the edge of the South Laines area, and is close to many bus routes.

For Clarendon Villas, you can catch any of the following buses from Brunswick Place bus stop: 46, 2, 5, 5A or 5B. You need to alight at the George Street stop then it's a short walk from there.

For details about service times and route information please refer to www.buses.co.uk

For cheaper bus travel in the Sussex area, students can get discounted tickets using the Brighton Bus App for Smart Phones. For more information visit the website www.buses.co.uk/app

Train - For those living outside of the city, BIMM is easily accessible from either Brighton or Hove mainline stations. There are also frequent trains which run to and from London Victoria and London Bridge. Have a look on www.southernrailway.com for train times and ticket prices.

Bike - Brighton and Hove is very cyclist friendly with accessible cycle lanes, bike storage and a popular bike rental scheme with docking stations all around the city. For many, it's the most cost-effective way to travel. Find out more about cycling in Brighton www.brighton-hove.gov.uk/content/parking-and-travel/traveltransport-and-road-safety/cycling

Get
Connected

Networking Events

BIMM hold networking events throughout the year and these are fantastic opportunities to get together with other students from different courses that have similar interests. Not only is it a way to find new friends and swap some phone numbers, but it's also a good place to start finding band members, producers, film makers, managers, writers or any other creative partner for your music network.

BIMM Gigs

Once you've got your band together, you can audition for one of BIMM's live gigs. We hold various events across the year, and utilise the world class venues you will find on our doorstep, such as Concorde 2 and The Old Market. In addition to these gigs we also have a long standing festivals programme where we can connect you with performance opportunities or work experience, as well as regular Lamplight gigs for Songwriters. Our Event Management students curate and run a series of gigs at the Green Door Store.

These are ticketed events with all proceeds going to charity, and are a great opportunity for students to get some live performance experience or put on a brilliant show for their peers, friends and families. Many budding promoters have gained their first experience in the Brighton Live music scene here.

BIMM Playlist

The BIMM playlist is a showcase of the best songwriting and production talent at our institute.

Students have the opportunity to submit their demos to be reviewed by our Artist Development team and a selection of these songs will be professionally recorded, mixed and mastered. We can then help artists devise the best release strategy to launch their band and grow their audience. BIMM students and the wider music industry are included in the selection process and the Playlist has been the launch pad for numerous bands and solo artists.

Creative Collaboration

The BIMM community reaches far across the city with many opportunities to create with other aspiring professionals from a wide range of artistic fields.

SFS & ICT - Partnerships with Screen and Film School (SFS) and Institute for Contemporary Theatre (ICT) widens your creative community to the film and performing arts industries.

Tempo - BIMM's student-run magazine has been published since 2016, giving music journalism and now MMMC students the opportunity to interview, review, write copy, edit and create this high-quality magazine.

Pool Valley Recordings - Non Performance students have an opportunity to run their own music company - Pool Valley Recordings. Here students are given a budget to manage and small label teams can develop and release the bands they chose.

You will work closely with industry partners and mentors to release and promote your artists and there are live events teams to help build the audience. Previous label managers have gone on to secure work in major and independent labels, promotion companies and publishers.

Careers & Industry Team

Your career in music starts here at BIMM and we have a dedicated Careers and Industry team looking forward to working with you.

We support the next generation of music producers, performers and entrepreneurs in a number of ways. If you are a performer or songwriter, you will be invited to artist development tutorials where you will be advised on recording, gig opportunities, your digital profile, photography, videos and promotion.

For industry professionals such as Event Managers, Journalists and Music Business students, there are numerous exciting placements at companies across labels and promoters, publishers, PR and magazines. Book a Careers tutorial to get advice on your CV or on starting your own business.

Make sure to log into your BIMM Connect app regularly to see the amazing work experience opportunities posted there each week; the different events you could attend and work at, or even use it to connect with other BIMM students.

All students are welcome at our weekly run Careers Hubs where we bring the industry to you. Meet with your potential employers and learn about how they got to where they are today. You will meet the professionals, A&R, lawyers and festival managers; from all walks of the music industry, be ready to network and potentially bag that internship!

Freshers' Guide

Common Feelings

Moving away from home to a new city and starting university is an exciting opportunity for a big change. You get to make a whole new start in a new place with new people. You might feel a mixture of great excitement and nervousness – what will the course really be like? Will I get on with my housemates? Will I make friends? How do I look after myself?

Please remember that you are not alone in feeling this way. These are all questions that everyone in your situation is asking themselves. If you're worried about making friends, or not knowing the city, or how to make a Bolognese; remember that every other person around you probably feels the same way, and within just a short time you will almost certainly feel more at home and comfortable than you can even imagine.

Strategies For Coping

There are some important things to keep in mind when going through this experience of moving away from home. These will prepare you and help you to cope with any situation you stumble across.

Look after yourself – It takes time for new friends to really know you properly, which means you need to put your own welfare, health and safety at the top of your priorities.

Know yourself and what you can handle – This is a time when you can experiment and find a way of living that really suits you, but this can take time. Try not to be pressured or influenced by others' opinions and actions. Try to make decisions about life choices in the cold light of day, so that you know how you want to respond if you end up in a tricky situation.

Confront difficulties – In a new environment it's easy to waste time worrying about things you don't understand or can't control. Don't be afraid to ask the Student Support team and many other agencies external to BIMM who are ready and willing to help you with any problem or query, big or small. Begin to see challenging situations as a chance to overcome something rather than a problem in your way.

Be healthy – Maintain a good diet, get adequate sleep and try to be active when you can; people are often happier if they are healthy. Register with a local doctor's surgery so that if you fall ill you can get the right care. If you are feeling stressed or sad, talk to the Student Support team, they will find you the right support and know when you need to get some extra help.

Make a budget – Work out how much money you have for the semester, and how much you will have to spend on unavoidable costs like rent, food and bills. This way you will know how much you have left to spend on yourself. Doing this will avoid running out of money half way through the term, which can be very stressful.

Find a Work/Life Balance – As independent study is so important at university; it can sometimes be hard to give yourself time off. Give yourself regular breaks and occasional days off.

Do work some of the time – Being away from home and with so much to do in a new city, it can be easy to neglect your work and fall behind in the course. Make sure you find the time for your studies to avoid a stressful situation. If this doesn't come naturally, using a calendar or timetable to plot your study/practice hours can really help create a routine.

Be yourself! – People can't get to know and like you for who you really are if you don't try being your authentic self. Remember, it's okay if things aren't always okay too. There are so many people to potentially become friends with.

Faculty Information

BIMM Brighton

Our BIMM Brighton campuses comprise:

BIMM West

38-42 Brunswick Street West
Hove
BN3 1EL

BIMM House

Brighton
BN1 1HG

Classes are also taught at

The Villas Hove

21-23 Clarendon Villas
Hove
BN3 3RE

Practice Facilities

At BIMM Institute Brighton we make teaching spaces available in BIMM House, West and North for students to book to rehearse, practice and create in for free, timetable permitting.

BIMM Institute has teamed up with Brighton Electric to offer BIMM students free rehearsal time in some of their fantastic facilities. Along with their state of the art rehearsal rooms and the teaching that we deliver out of their world class recording facilities, BIMM students love to hang out at Brighton Electric because of their on site venue and bar which is regularly used by Events Management students to put various shows and events on.

Student Cards

You will be issued with a BIMM student card and lanyard at the start of your course. **It is compulsory that you wear your student card at all times when on BIMM premises.**

Student Common Room

There is a student common room in BIMM Central, with seating areas to relax and socialise between classes. There is also a café and seating area in Clarendon Villas. We also have our very own coffee stand on the BIMM west yard, where Rory brews up the best coffee in Hove, whilst playing some of the coolest songs and artists at the BrewShack.

IT and Technical resources

To help you navigate your way through your studies at BIMM Institute Brighton we have supplied you with a number of technical resources which are available to you during your time with us. Whether you want email on the go, a place to store all your data or just want to ask for technical support on all the various offerings available, we have you covered:

- A downloadable offline copy of the latest version of office 365
- A terabyte of cloud data dedicated to you
- An online self service password management tool
- A virtual e-Library packed with resources to aid your studies
- A student IT Support channel
- A one stop dedicated student web page where all your resources are housed
- Mac Labs with an extensive software estate for qualifying courses

Please help us help you during your time at the BIMM Institute by :

- Choosing a complex password that you will remember that incorporates...
 - 8 characters or more
 - Uppercase, lowercase, numerals and symbols
 - Combine words, don't use one word
 - Make up a new word that's not in the dictionary!
- Always maintain software versions on your personal devices that match the software versions in the
- Mac Labs
- Backup your important work in the cloud so it's safe

If you have any IT questions or concerns you can contact us on itsupportbrighton@bimm.co.uk
